

GREEN SCHOOLS

TOP TIPS BY THE GREEN TEAM

These tips will be useful for you at home

- Read your bills if they are going up see what appliances are making your bills go up and take action.
- Ensure family members know how to use thermostats (unless they are like under 5).
- Make sure your time clocks are 7 day timeclocks and are set to the correct time with correct on-off times.
- Eliminate local electric heaters by repairing the main heating system.
- Consider replacing your boiler if it is more than 20 years old. Old boilers can have a seasonal efficiency as low as 60%. New boilers can have a seasonal efficiency as high as 90%.

- * Washing: wash full loads, wash at 30°.
- * Turn off appliances at the socket.
- * Don't charge things overnight.
- * Turn off the lights and always use energy saving light bulbs.
- * Close doors to keep in heat.
- * Get double or triple glazed windows.
- * Open blinds during the day and close them at night.
- * Don't forget to insulate your house.

Better Energy Communities grant scheme now open for 2014.

There are currently two grant programmes available to homeowners: The Better Energy Homes scheme provides grants for improvements in: Roof Insulation, Wall Insulation, Installation of a High Efficiency (> 90%) Gas or Oil fired Boiler, Heating Control Upgrades and Solar panels.

The Warmer Homes Scheme (WHS) aims to improve the energy efficiency and comfort conditions of homes occupied by vulnerable households in receipt of the National Fuel Allowance Scheme through the installation of draught proofing, attic insulation, lagging jackets, low energy light bulbs and cavity wall insulation where appropriate.
